THEATRE VENUE HIRE SERVICES

Our Proposition

London has some of the most beautiful theatres in the world. Their owners rewarded by long running successful shows, have been steadily investing in improving their theatres. Today almost all theatres have undergone refurbishment and re-development, creating new uses for the buildings and many have made the auditoriums available for other events.

Freespirit Events have brought together a full portfolio of raked auditoriums, studios and theatre spaces which are available for hire. Working with almost all of London's theatre owners we work around the production schedules and performance commitments of the busiest West End theatres to make these superb facilities available for hire for special events and functions.

Working within your brief, we will secure the most suitable and available theatre venue, providing all necessary support and assistance to realise your event.

Incorporated in 2002, Freespirit Events' Directors have over 40 years practical theatre, event and commercial management experience within the entertainment and theatre industry. No other company specialises in in-theatre events and with a pedigree of over 150 landmark events to our name, we have the proven experience and track record to successfully deliver.
